

COOLGUARDTM ADVANCE

SETTING NEW STANDARDS IN SINGLE-USE SHIPPERS

CoolGuardTM Advance is our range of high-performance single-use shipping systems with phase change materials and vacuum insulated panels. This shipper is designed and tested to ensure maximum protection of valuable payload through use of standardized components with simple, error-free assembly.

WHY CHOOSE COOLGUARDTM ADVANCE?

- Superior temperature stability of 72 - 120+ hours
- High-performance VIP and PCM technology reduces excursions and increases compliance while providing a low total cost of ownership
- Achieves industry leading payload to external volume ratios, reducing storage and distribution costs
- Quick, simple, and error-free packing process with single-temperature, one size PCM coolants interchangeable between CoolGuardTM Advance and CoolGuardTM PCM ranges
- Hibernation can be achieved at any point during transit, resulting in longer temperature compliant shipments
